

STRONG, SILENT, SECURE

16 gauge shelves

Single point latch

No rust bottoms

EXCALIBUR LOCKERS

GSS raised the bar with the Elite Locker product series. Now we've built something even stronger. Introducing Excalibur!

The increased steel thickness on every part of the Excalibur locker results in a product that is 25% heavier than any other locker on the market in North America.

- + 14 gauge outer door panel, 20 gauge liner
- + All other components are minimum 16 gauge
- + Our standard quiet close, never sag door, with single point latch
- + Galvanneal steel bottom

NO COMPROMISING.

GSS does not compromise on product quality. The Excalibur Locker is the strongest and most durable locker in the market today.

Available in many custom color powder coated finishes. Purchase assembled, knocked down or fully welded bodies.
